

POLAR SPRING

Aitoa, suomalaista lähdevettä.
Genuine, Finnish spring water.

12.2.2015

Dear Friends in Thermo- Pack Ukraine, Belaya Tserkov,

It has been a pleasure to work with You.
Through You we have learned to know for us a new part of our Europe – Ukraine.

In spring 2013 Thermo-Pack delivered to Polar Spring Oy a new labeling machine MPPE -10000A. This machine has worked to our satisfaction so well that now in spring 2015 we are already waiting to receive our second MPPE-10000A machine.

Polar Spring Oy, www.polarspring.com, is a Finnish natural spring water company. We deliver spring water from our famous Kivistö Spring located on Salapauselkä in Finland, <http://en.wikipedia.org/wiki/Salpausselk%C3%A4>.

We look forward to build a long term continuous relationship with You.

With kind regards,

Niilo Pellonmaa
Managing Director
